

COMMITTEE

- **Create a 21st Century Teaching and Learning environment, including flexibility for future teaching methodologies**
- **Deliver the project on time and within budget with a dollar of value for every dollar spent**
- Facilitate input / satisfaction for the School Department

PROCESS

- **Conduct timely community meetings and a program of outreach through a variety of means, including social media, website and student involvement**

EDUCATION

- **Provide flexibility to accommodate future educational needs and instructional practices, including a greater emphasis on project-based learning, interdisciplinary instruction, 21st century skills, collaboration, and the exhibition of student work**
- A best in class facility
- Promote and enhance educational excellence in all program areas, with an emphasis on facilities for science, technology, and “the arts”.
- Maximize use of technology to enhance learning
- Support Special Education with appropriate spaces, facilities and program
- Provide appropriate facilities for Wellness and other extra circular student programs
- Create informal gathering spaces to enhance student experiences

COMMUNITY

- **Create an asset that is representative of the community**
- Maximize community use / access for after hours use
- Provide parking and circulation for special events

Primary Goal(s) in BOLD

BUILDING

- **Provide a cost effective well designed facility which is inexpensive to maintain**
- **Maximize natural daylight and sustainable design opportunities**
- Address safety and security needs
- Include air conditioning for year round use
- Consider how the facility impacts the towns' resources and funding

SITE

- **Provide an integrated campus plan, incorporating building, play fields, roadways, parking and natural elements**
- Optimize site circulation for drop-off and pick-up and accommodate traffic safety concerns, bikers and walkers
- Minimize flooding / drainage and wetlands impacts
- Create an intuitively identifiable front door

CONSTRUCTION

- **Minimize impact of construction on teaching and learning and on neighbors and abutters**

Primary Goal(s) in BOLD
